

## BP4Apps Financial Consolidation and Close

### Oracle Financial Consolidation and Close Cloud Insight for Users & Application Experts

Horus BP4Apps stands for „Business Processes for Oracle Cloud Applications“ and provides comprehensive process and application knowledge for the Oracle SaaS product portfolio.

#### Holistic support of consolidation and financial closure processes

Oracle Financial Consolidation and Close Cloud is a comprehensive solution for the complete execution of financial closures from beginning to the end. The application is based on best practices with out-of-the-box functionalities, and can be applied in a fast way. Dynamic calculations – such as the cash flow, the balance, the profit and loss account as well as the rollover – are determined automatically and provided with minimal need for adaptation. This way, time and cost savings are possible and the consolidation and financial closure process is optimized. Regardless of the size of the company, this easily configurable solution provides for lawful, valid, near-term and transparent financial processes.

#### Comprehensive process- and user knowledge for Oracle Financial Consolidation and Close Cloud

With Horus BP4 Financial Consolidation and Close, the user or application expert gains an easy-to-use, knowledge-based system which can be obtained as a service from the Horus Public Cloud.

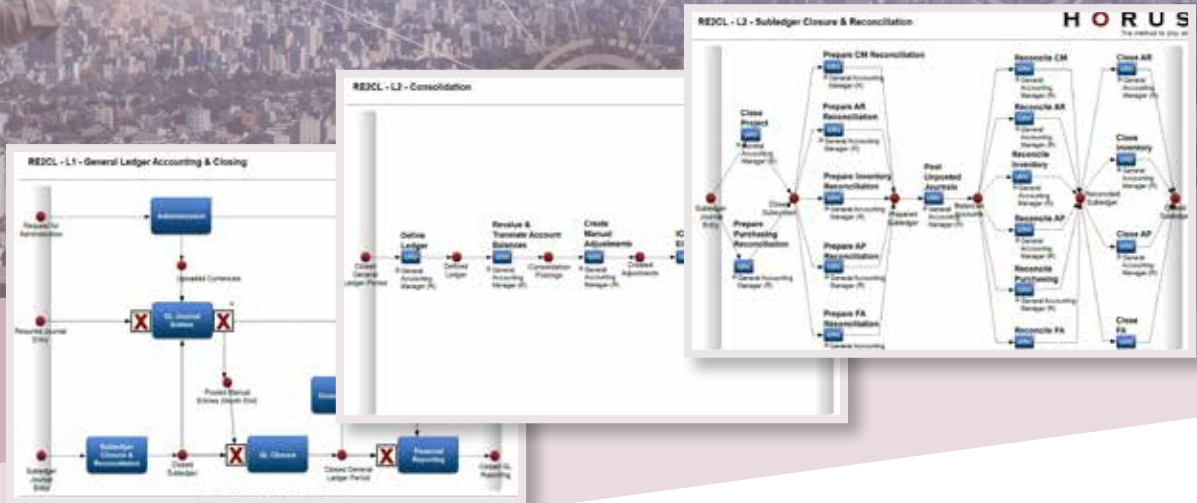

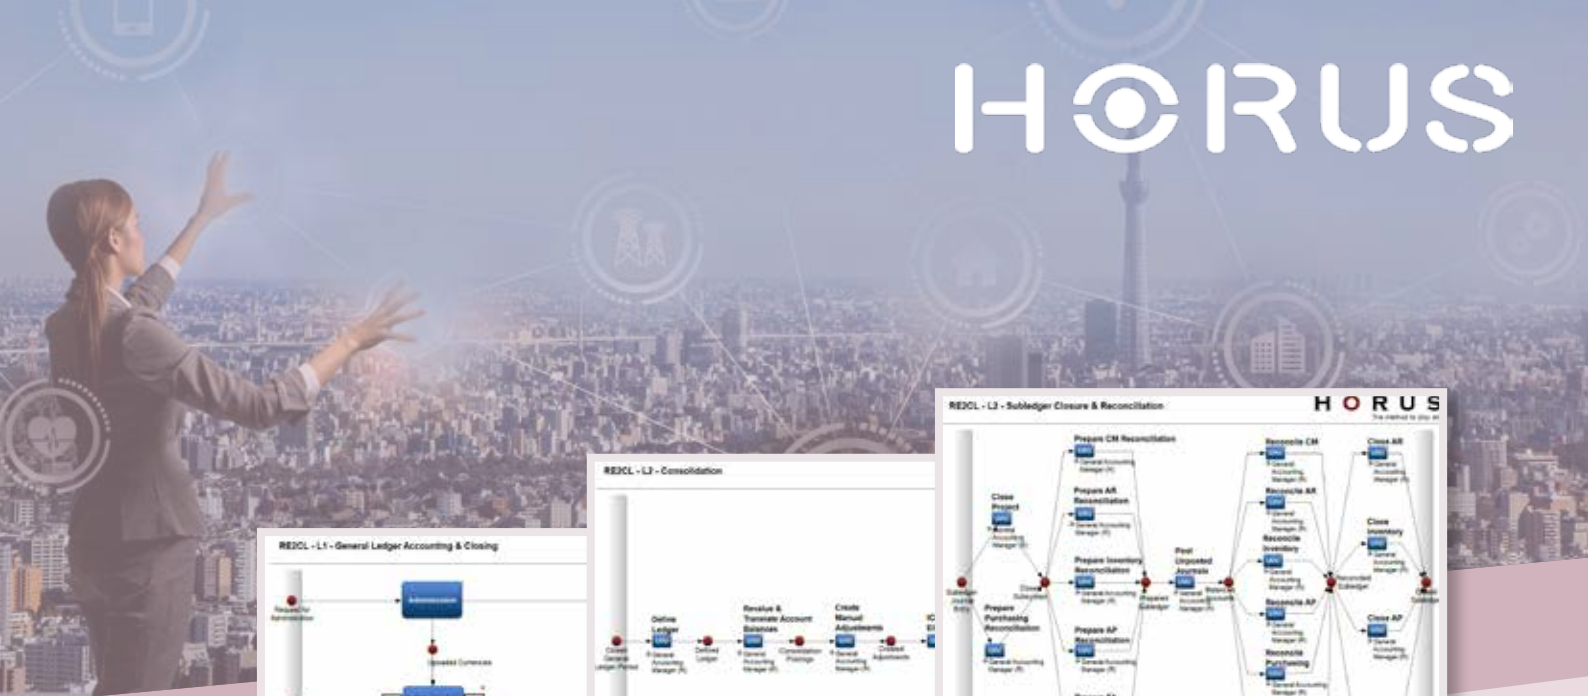

In the private Horus Community Portal, extensive business process knowledge is made available for the relevant Oracle application modules. The user community gains access to the tool in a target-group-friendly way and with regard to the possibility of exchanging invaluable knowledge within the user community.

#### Components of the knowledge product BP4 Financial Consolidation and Close

An extensive knowledge base is the core of Horus BP4 Financial Consolidation and Close and allows the user a profound insight into the functional structures of Oracle Cloud Applications. This knowledge base consists of easily comprehensible, logically linked models that provide different perspectives on the user-relevant aspects of Oracle Cloud Applications.

The core consists of the following modeling components:

- Clear and precise dashboard
- Easy consolidation
- Optimized monthly and annual statement

Extensive knowledge models for functional structures of the Oracle Financial Consolidation and Close Cloud

## Commercial Framework

The price of BP4 Financial Consolidation and Close is determined according to the Oracle Financial Consolidation and Close Cloud services licensed for the customer as follows:

Volume class	Hosted Named User	Annual subscription fee
I:	≤ 15	EUR 1.000,00
II:	16 - 30	EUR 2.000,00
III:	> 30	EUR 3.000,00

The scope of delivery includes the respective licensed knowledge models as well as the use of the Horus repository and the Horus Private Community as a service from the Horus Public Cloud. The Horus Public Cloud is hosted in a German data center.

## Licensing

BP4Apps products contain product-specific knowledge models including reference processes, user instructions and test cases. Cloud licenses of the product „Horus Private Community“ with the restriction of an exclusive use with BP4Apps are included in the distribution package.

The purchase of Horus Cloud Services is based on a cloud service contract of Horus software GmbH. The customer agrees to the terms valid at the time of acquisition. The minimum contract period is 3 years. After that, it is automatically renewed each year.
