

BP4Apps Incentive Compensation

Oracle Incentive Compensation Cloud Insight for Users & Application Experts

Horus BP4Apps stands for “Business Processes for Oracle Cloud Applications” and provides comprehensive process and application knowledge for the Oracle SaaS product portfolio.

Simple calculation of variable sales compensation

Oracle Incentive Compensation Cloud, part of Oracle Sales Cloud, can be used to calculate variable sales compensations. A complete ERP and HCM integration allows for an accurate compensation calculation. Real-time insights and powerful analytics provide accurate visibility into sales target achievements. This provides an incentive for the sales team to meet those goals and boost performance.

Comprehensive process and application knowledge for Oracle Incentive Compensation Cloud

With Horus BP4 Service, the user or application expert gains an easy-to-use, knowledge-based system which can be obtained as a service from the Horus Public Cloud.

In the private Horus Community Portal, extensive business process knowledge is made available for the relevant Oracle application modules. The user community gains access to the tool in a target-group-friendly way and with regard to the possibility of exchanging invaluable knowledge within the user community.

Components of the knowledge product BP4 Service

An extensive knowledge base is the core of Horus BP4 Service and allows the user a profound insight into the functional structures of Oracle Cloud Applications. This knowledge base consists of easily comprehensible, logically linked models that provide different perspectives on the user-relevant aspects of Oracle Cloud Applications.

The core consists of the following modeling components:

- Sales targets
- Variable compensation

Extensive knowledge models for functional structures of the Oracle Incentive Compensation Cloud

Commercial Framework

The price of BP4 Service is determined according to the Oracle Incentive Compensation Cloud services licensed for the customer as follows:

Volume class	Hosted Named User	Annual subscription fee
I:	≤ 20	EUR 1.600,00
II:	21 - 100	EUR 3.200,00
III:	> 100	EUR 4.800,00

The scope of delivery includes the respective licensed knowledge models as well as the use of the Horus repository and the Horus Private Community as a service from the Horus Public Cloud. The Horus Public Cloud is hosted in a German data center.

Licensing

BP4Apps products contain product-specific knowledge models including reference processes, user instructions and test cases. Cloud licenses of the product "Horus Private Community" with the restriction of an exclusive use with BP4Apps are included in the distribution package.

The purchase of Horus Cloud Services is based on a cloud service contract of Horus software GmbH. The customer agrees to the terms valid at the time of acquisition. The minimum contract period is 3 years. After that, it is automatically renewed each year.
